Summary

Experienced PHP Developer with 3+ years of hands-on experience in architecting and maintaining sophisticated web applications and dynamic e-commerce platforms. Expertise in crafting custom CMS solutions, seamlessly integrating third-party APIs, and optimizing backend systems for superior scalability and performance. Adept at delivering robust, user-centric solutions in fast-paced environments, with a proven track record of driving innovation and efficiency in software development projects.

Skills

- **Technical** - HTML5, CSS3, PHP, Laravel, Git, MySQL, Bootstrap, Javascript, jQuery, ReactJS, Python, Docker, AWS
- **Languages** - English, Hindi, Marathi

Professional Experience

2022 Feb – present

Web Developer

Agaetis Technologies Pvt Ltd 

- **Full-Stack Development:** Led the development of several full-stack web applications using Laravel and ReactJS, ensuring seamless integration between the front-end and back-end.
- **API Integration:** Integrated third-party services such as payment gateways, social media APIs, and analytics tools, enhancing the functionality and user experience of web applications.
- **Performance Optimization:** Implemented caching strategies and database optimizations that improved application performance by up to 30%.
- **Cloud Management:** Administered AWS services such as EC2, S3, and RDS, automating deployment processes using Docker and CI/CD pipelines.
- **Project Leadership:** Spearheaded multiple projects from concept to completion, managing timelines, deliverables, and stakeholder communication effectively.
- **Mentorship:** Provided mentorship and guidance to junior developers, fostering a collaborative team environment and improving overall code quality.

2021 Jan – 2022 Feb

Junior Web Developer

Agaetis Technologies Pvt Ltd 

- **Feature Development:** Played a key role in the development and enhancement of web applications by writing clean, modular, and well-documented code.
- **Database Design:** Assisted in designing and optimizing database schemas, contributing to improved data integrity and retrieval speeds.
- **API Development:** Developed RESTful APIs that facilitated communication between front-end applications and back-end servers.
